Subject: Introduction

Good morning, Terry.

My name is Don Edgington and I'm the contractor point of contact working for Gary and Paige to clean-up the former F.J. Doyle site. I'd like to make arrangements with the city to access a fire hydrant or other water loading area to provide the site with sufficient water to for use in maintaining a water fog during structural demolition and excavations.

We would use a combination of lay-flat fire hoses and/or a water truck for this purpose. I'd also like to set up an account for water usage and temporary use of a hydrant meter, if we are allowed to access the closest fire hydrant, which I believe is on the corner of Poplar and W. Hackberry.

My contact information:

Don W. Edgington
Response Manager
Environmental Restoration, LLC
(251) 406-0220
d.edgington@erllc.com

Thank you in advance for your assistance.

Regards,

Don
